Art Unit: 1742

## **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: the prior art does not reasonably teach or suggest the heat treatment step as is now claimed where it (1) occurs in a carbon gaseous environment which necessarily has a higher carbon activity than in the carburizing step or (2) produces WC powder with the claimed relationship of coherence length to lattice strain. Since the heat treatment step suggested by Felten et al does not occur in a carburizing gas atmosphere, one of ordinary skill in the art would not have had the motivation to have performed the heat treatment step in a carburizing gas atmosphere.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Harry D. Wilkins, III whose telephone number is 571-272-1251. The examiner can normally be reached on M-F 8:30am-5:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Roy V. King can be reached on 571-272-1244. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
